**How to read it:** the front of this sheet is the table, colour coded by category. Here every tile is listed in the same order, with its number, symbol and full name. Commands in blue install the tool directly.

Don't stop at paper. The full interactive table is at [ledlight33.github.io/periodic-table-of-dfir](https://ledlight33.github.io/periodic-table-of-dfir) with live search, category filters and a tooltip on every tool. Source and updates on GitHub.

"WHAT OUR EYES CAN SEE IS NOT THE MEASURE OF ALL THINGS."
